

# Windows Intune: Cloud Services for PC Management

## Windows Intune™

## Challenges in Managing Business PCs

Multiple Configurations, Versions, Licenses

Workers in Many Locations

Lack of Insight to PCs

High Infrastructure Investments Required

## Solution Cloud services and Windows 7

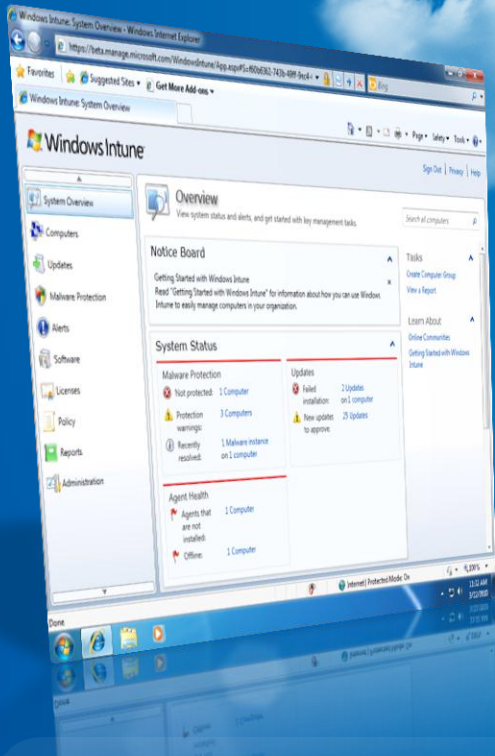

**Manage & Secure PCs Anywhere**  
(Cloud services)

**The Best Windows Experience**  
(Standardize OS on Windows 7)

**Fits Your Customer's Business**  
(Big result with low investment)

# Help Manage & Secure PCs Anywhere

## Simple Web-Based Administration Console

- ✓ Protect PCs from malware
- ✓ Manage updates
- ✓ Proactively monitor PCs
- ✓ Provide remote assistance
- ✓ Inventory hardware and software
- ✓ Set security policies

## Enable a Mobile Workforce

Users can be managed from the office, branch office, or on the road

IT and partners can work from anywhere too

# The Best Windows Experience

Get Windows 7 Enterprise and more

Standardize on a single version of Windows to increase efficiency

Upgrade to Windows 7 Enterprise

Run any version of Windows

Upgrades to future Windows versions

  
Windows 7  
Enterprise

BitLocker To Go

Improved UI & Search

Better Mobility Experience

Speed, reliability,  
and responsiveness

# Fits Your Customer's Business

Big tech results with a small tech investment

All-in-one solution

Easy to get started with no infrastructure setup

Low overhead and maintenance

Always up-to-date and current with latest versions

Simple, predictable billing at \$11/device/month

# Scaling to the Enterprise Over Time Delivering PC Management and Security today and in the future

V1 feature set brings value to customers:

Without an existing solution

With basic management needs

With highly mobile workforce

With a large Windows XP install base

Underlying platform  
built for enterprise scale

More frequent release cycle  
than our on-premise products

Roadmap is parity with solutions  
used by enterprise customers today
